

Supreme life raft launch systems

With our alexios life raft launch systems, FlowGrill adds a new dimension to it's definition of innovation. Our costs saving standard solution is a perfect base to integrate a life raft container into any yacht design, with the ability to incorporate the system into the construction fully enclosed. The design of the launcher is according the SOLAS standards.

Safe, simple, superb

- Lloyd's approved.
- Designed according to SOLAS standards.
- Launched fully automatically by quick release system.
- Periodic testing by using manually operated winch.
- Mountable on flat or angular surfaces.
- Can also be made to use alternative life rafts.

Options

- High polish.
- All preferred yacht paints possible.
- Tailor made frame connecting launcher to the deck of the ship.

Fully enclosed launcher

If desired, alexios life raft launch systems can be incorporated into the design of a ship, fully enclosed by hatches and activated by hydrostatic and remote releases.

▲ Hingeable louver with lamella intergrated unlocking system

▲ Fully enclosed

FlowGrill serves the global yacht building industry with a wide range of innovative solutions that excel in terms of design, reliability and durability. Choose technical ingenuity and visual beauty.

Providing standard products as well as custom made solutions, FlowGrill enables our customers to realize their highest ambitions and meet their ultimate demands, both technically and visually. All our products are designed, developed and produced in house, allowing us to cooperate closely with architects and builders from the initial design stage onwards.

Varying from ventilation louvers to life raft launch systems, FlowGrill offers an ever increasing diversity of products as well as flexibility from the very first design to final implementation.

FlowGrill delivers a variation of products like:

- Standard ventilation louvers.
- Supreme life raft launch systems.
- Special ventilation solutions (3D free shaped).
- Hingeable louvers.
- Hybrid aluminum/composite construction.

All FlowGrill products are designed, developed and manufactured in-house, to ensure high quality.
